GSA's Automated Advanced Acquisition Program

Welcome, P Brennan!

The Automated Advanced Acquisition Program site has been developed to make it easier for people and businesses to interact with the government, save taxpayer dollars and streamline the leasing transaction process. The site offers the general public and businesses the opportunity to electronically offer building space for lease to the Federal Government. The offer submission process is completely web-enabled, allowing all registered participants to submit and update offers to lease space to the Federal Government within specified timeframes, in response to a Request for Lease Proposal (RLP).

Who Are We?

The General Services Administration is the "business side" of the U.S. government. The General Services Administration was established over 50 years ago by President Truman on July 1, 1949 by section 101 of the Federal Property and Administrative Services Act as a result of a recommendation by the Hoover Presidential commission. We provide business leadership and expertly managed services, and solutions, at the best value, to enable Federal employees to accomplish their missions.

For the Offer Status Definitions, please [Click Here](#)
